PRINCE2® Practitioner Course

Delivery Method : Classroom

Code : P209-C

Duration : 2 Days

What you will learn

The purpose of the Practitioner qualification is to confirm whether the candidate has achieved sufficient understanding of how to apply and tailor PRINCE2® in a scenario situation. A successful Practitioner candidate should, with suitable direction, be able to start applying the method to a real project but may not be sufficiently skilled to do this appropriately for all situations. Their individual project management expertise, complexity of the project and the support provided for the use of PRINCE2® in their work environment will all be factors that impact what the Practitioner can achieve.

At the end of this course, the delegate should:
- Understand the relationships between the roles, management products, principles, themes, techniques and processes
- Be able to apply the principles, themes and processes to a project
- Be able to create and assess management products.

Examination Guidelines

The Practitioner examination is an open- book objective test examination based on a given scenario and lasting 150 minutes. There are 8 questions each worth 10 marks, making a total of 80 marks available. The pass mark is 55% (44 marks required to pass out of 80 available).

Audience profile

This course is aimed at project managers, project management consultants and aspiring project managers. It is also relevant to other key staff involved in the design, development and delivery of projects who are required, or wish, to have a greater depth of knowledge of the method, including

- Project board members

- Team managers

- Project assurance

- Project support

Course outline

DAY 1

- Understanding the exam format
- Tips to answer Practitioner Questions
- Review of PRINCE2® Practice questions under examination conditions
- Review of answers

DAY 2

- Practitioner exam

Pre-requisites

Delegates must have attained the PRINCE2® Foundation level qualification. Delegates who have not done their Foundation course with Datrix may not have all the necessary knowledge expected of attendees for this course.
In these situations, a more detailed refresher may be required, in which case delegates should book the Combined Foundation & Practitioner course.

Delegates must have completed the Practitioner EX02 exam paper prior to the course. This paper can be downloaded using the link to the pre-course reading material. This is supplied once your booking has been placed.
