APMP for PRINCE2 Practitioners

Delivery Method : Classroom

Code : APMP4P2

Duration : 3 Days

What you will learn

Project Management methodologies, of which PRINCE2 is the paradigm, offer the Project Manager tried and tested structure and guidance in support of why, what, when, where and who…with one notable exception; PRINCE2 offers very limited guidance on 'How', in that there are no detailed project management tools and techniques covered as part of the method. This is the remit of the APMP for PRINCE2 Practitioners course and examination.

Read the OGC whitepaper on why you need PRINCE2 and APMP qualifications as a project manager

This intensive 3-day course provides delegates with comprehensive training to prepare them for the APMP examination (based on the APM Body of Knowledge, 5th Edition). It accredits the prior learning that a PRINCE2 Practitioner has attained by taking out of the examinable syllabus all of the topics that have already been assessed within the PRINCE2 Practitioner Exam.

The course will enable delegates to:

understand all elements of the APMP syllabus

get to grips with the specific examination language

learn strategies and tactics for approaching the examination. Examination practice and feedback is included in the workshop

Examination Guidelines

Delegates sit the APMP for PRINCE2 examination on the afternoon of the last day of the course. This examination has been shortened to two hours (standard APMP is 3 hours) and with fewer questions to answer as questions covered by PRINCE2 are no longer examinable.

The examination consists of:

- 6 essay based questions each worth 50 marks, to be selected from a total of 10
- 2 hours
- Closed-book
- Candidates require a minimum of 165 marks out of 300 (55%) to pass

Audience Profile

This course is for people with up to two years' project management experience and is suitable for project managers and aspiring project managers. Ideally will have some experience of working in a project environment and have a basic of project management issues.

Prerequisites

Candidates must be current (within the last 5 years) PRINCE2 Practitioners. It is also essential that you provide proof of your PRINCE2 Practitioner status such as your certificate, or candidate number which will be checked prior to you being allowed to sit the shortened examination.
