PRINCE2® Re-registration Practitioner Course

Delivery Method : Classroom

Code : P2RP

Duration : 2 Days

What you will learn

The purpose of the Practitioner qualification is to confirm whether the candidate has achieved sufficient understanding of how to apply and tailor PRINCE2® in a scenario situation. A successful Practitioner candidate should, with suitable direction, be able to start applying the method to a real project but may not be sufficiently skilled to do this appropriately for all situations. Their individual project management expertise, complexity of the project and the support provided for the use of PRINCE2® in their work environment will all be factors that impact what the Practitioner can achieve.

At the end of this course, the delegate should:
- Understand the relationships between the roles, management products, principles, themes, techniques and processes
- Be able to apply the principles, themes and processes to a project
- Be able to create and assess management products.

Examination Guidelines

The re-registration examination is an open- book objective test examination based on a given scenario and lasting 60 minutes. There are 3 questions each worth 10 marks, making a total of 30 marks available. The pass mark is 55% (17 marks required to pass out of 30 available).

Audience profile

This course is aimed at delegates who wish to re-register their PRINCE2® Practitioner Qualification.

Pre-requisites

Delegates must have previously passed the PRINCE2® Practitioner certification in order to sit the Re-Registration Exam.

Delegates must have completed the Practitioner EX02 exam paper prior to the course. This paper can be downloaded using the link to the pre-course reading material. This is supplied once your booking has been placed.

Course outline
